AMERICAN LITTORAL SOCIETY

Founded as a local diving/fishing club in 1961, the Society has grown to an international organization of members united in an interest in the sea and what lives there, particularly in the productive, shallow ocean close to shore.

The work of the Littoral Society serves all people who love the sea and want to learn more about it and protect it. Basic dues start at $7.50 per year ($5.00 for students). Libraries $10.00 per year.
